

Mueller

> **Duke University School of Nursing
Durham, NC**

A 71,000-SF, LEED-certified academic building with classrooms and laboratories

Duke University's new School of Nursing incorporates breakthrough technologies and instructional approaches for the nationally acclaimed nursing and research program. The building includes lecture halls; laboratories; offices; and classrooms equipped with technology to support patient simulation, wireless Internet access, data analysis, and distance learning. Mechanical, electrical, lighting, and plumbing systems minimize energy and water use, in keeping with the ambitious LEED strategies employed throughout the building.

"Mueller was the perfect fit. This is an academic building with labs, advanced technology, and sustainable applications. The engineering was critical to the success of this project."

James A. Wheeler, AIA
