Gratton Named Mechanical Project Engineer at Mueller

Engineer Has Helped Design Major Cultural, Higher Education Projects

Baltimore, MD—July 13, 2020

Mueller Associates has announced that Bradley Gratton, PE, has been promoted to mechanical project engineer. Gratton joined the firm in 2015 and has contributed engineering expertise to the design and construction administration of numerous complex and high-profile projects in the Mid-Atlantic region.

Projects include the new Duke InterProfessional Education and Care Building in Durham, N.C.; lab and infrastructure renovations within the University of Maryland H.J. Patterson Building in College Park, Md.; master utility planning and infrastructure projects at Georgetown University in Washington, D.C.; the renovation and adaptive reuse of the historic Corcoran building in Washington, D.C.; and natatorium and library renovations at the St. Mary's College of Maryland in St. Mary's, Md.

Gratton holds a B.S. degree (2015) in mechanical engineering from the University of Maryland.

“Brad has been a key team member on several of our most complicated projects,” says Steven Gillis, PE, vice president and group manager with Mueller. “His technical expertise, strong communications skills, and in-depth knowledge of HVAC systems and energy-conservation strategies consistently make him a valuable resource to our clients.”

About Mueller Associates

Established in 1966, Mueller Associates provides mechanical, electrical, plumbing, and fire protection engineering services for facilities throughout the Northeast and Mid-Atlantic. The firm specializes in engineering for academic buildings, museums, libraries, performing arts centers, government facilities, and other institutional and corporate facilities requiring designs for stringent environmental control, energy conservation, and sustainability.

Current and recent projects include renovations to the Smithsonian Institution's National Air and Space Museum in Washington, D.C., the Enoch Pratt Free Library in Baltimore, the George Washington University Corcoran School of the Arts and Design in Washington, D.C., the Peterson Family Health Sciences Hall at George Mason University in Fairfax, Va., the School of Pharmacy and Health Professions at the University of Maryland Eastern Shore in Princess Anne, the College of Health Professions building at Virginia Commonwealth University in Richmond, and the Duke University InterProfessional Education and Care building in Durham, N.C.
